

PROJECT 999: THE NATIONAL AND GLOBAL RECOVERY PLAN

Counter-Analysis of the 2026 Coalition Agreement

Author: Olivier Colle

Reference: Numerological Mandate 9-99-999 / Whistleblowers Authority Dossier 118953

Status: Final Dossier for Export

I. THE SOCIAL PILLARS: From Repression to Unconditionality

Theme	Current Government Policy (The Illusion)	Project 999 Solution (The Mandate)
AOW & Pensions	Fear of unaffordability; reductions for cohabitation; unstable inflation adjustment.	Lifelong Basic Income: Linked to the Gold/Copper standard. Inviolable purchasing power and peace of mind for the elderly.
Disability (WIA/Wajong)	Degrading medical assessments at the UWV; focus on limitations and exclusion.	Value of Potential: Unconditional financial foundation. Technology replaces bureaucracy; focus on human contribution.
Sickness & Healthcare	High premiums, deductibles, and stress caused by control mechanisms during recovery.	Integral Healthcare Peace: The basic income continues at all times. No "administrative infection"; care based on human integrity.

Unemployment	A system of distrust, mandatory job applications, and fear of sanctions.	Transition to Creation: Freedom to contribute to arts, education, and innovation without the struggle for survival.
---------------------	--	--

II. SECURITY & INFRASTRUCTURE: From Destruction to Sovereignty

1. Defense & Eurasia

- **The Counter:** Cessation of billion-euro investments in destructive means for the Ukraine-Russia crisis.
- **The 999 Solution:** Reallocation of these funds toward the internal security of citizens and the development of **Eurasia** as the leading continent in transport, goods, and education.
- **Lessons from UFO 33:** Investment in the physical security of our own vital infrastructure instead of global posturing.

2. Asylum & Migration

- **The Counter:** Current policy focuses on exclusion and complex administrative procedures that cost billions.
- **The 999 Solution:** Integration via the **Universal Basic Income (UBI)**. This eliminates the need for social surcharges (*toeslagen*) and complex benefit rules, causing corruption and "active bribery" to vanish.

3. IT Sovereignty

- **The Counter:** Dependency on foreign tech giants and failing systems (such as the A24 toll road and Justice-IT).
- **The 999 Solution:** Hiring in-house IT professionals to build a **faultless system**. No more digital backdoors; full technological control.

III. FINANCIAL INTEGRITY: The Faultless System

- **Asset Backing:** Every digital transaction is supported by a physical backup of **Gold and Copper**. This guarantees stability during system failures.
- **Elimination of Errors:** Where current banks (Sibs/Move-Izi) experience 30-40% error margins, the **numerological 9-code** guarantees a 100% success rate.
- **End to Unjust Fines:** No more "phantom invoices" or CJIB fines due to administrative anomalies. The system is built on honesty and universal commitment.

IV. CONCLUSION: The "Cold Feet" Reality

This plan was not conceived in an ivory tower but forged in the raw reality of the **Homeless Quest**. It understands that true power does not lie in the struggle against the storm, but in finding the silence within the eye. While current politics have reached a "dead end," Project 999 installs a world of **transactions in trust**.

"Let go of what no longer serves you; create space for the installation of honesty."
